About Kingwo

- A leading brand of IoT service
- China Top 10 brand for vehicle telematics service
- More than 10 million terminal users globally
- More than 3 million connected units in Kingwo's software

1.000.000

Production Output
Yearly

8000 m²

Factory Space

10

Testing Lines

4

High-Speed
SMT lines

15 years

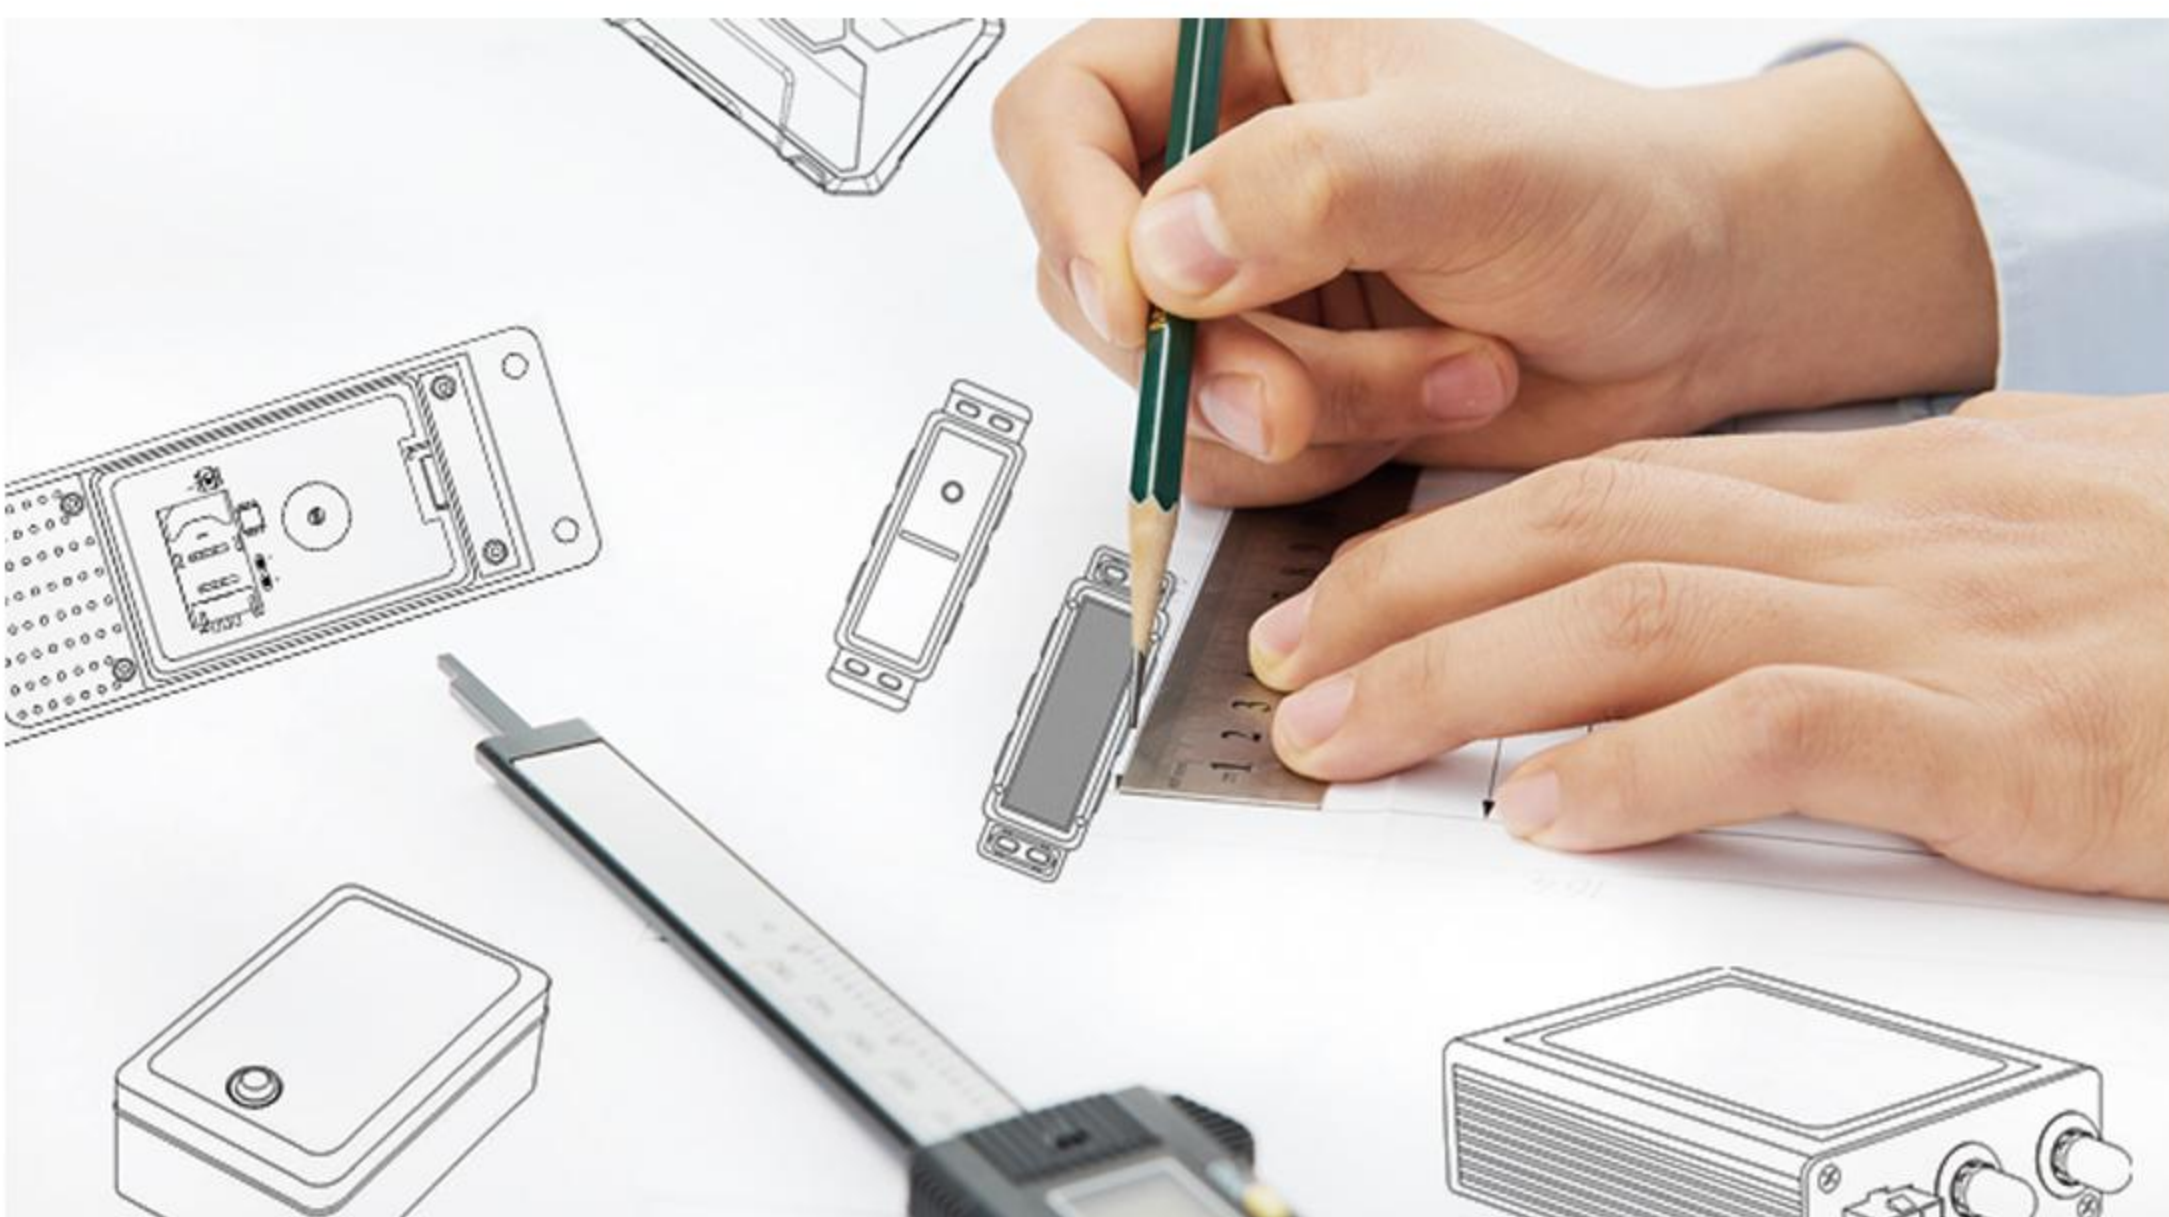

Experience

15 Year ODM & OEM Experience

Work with world famous 500 fortune corporation

We make your assets talk

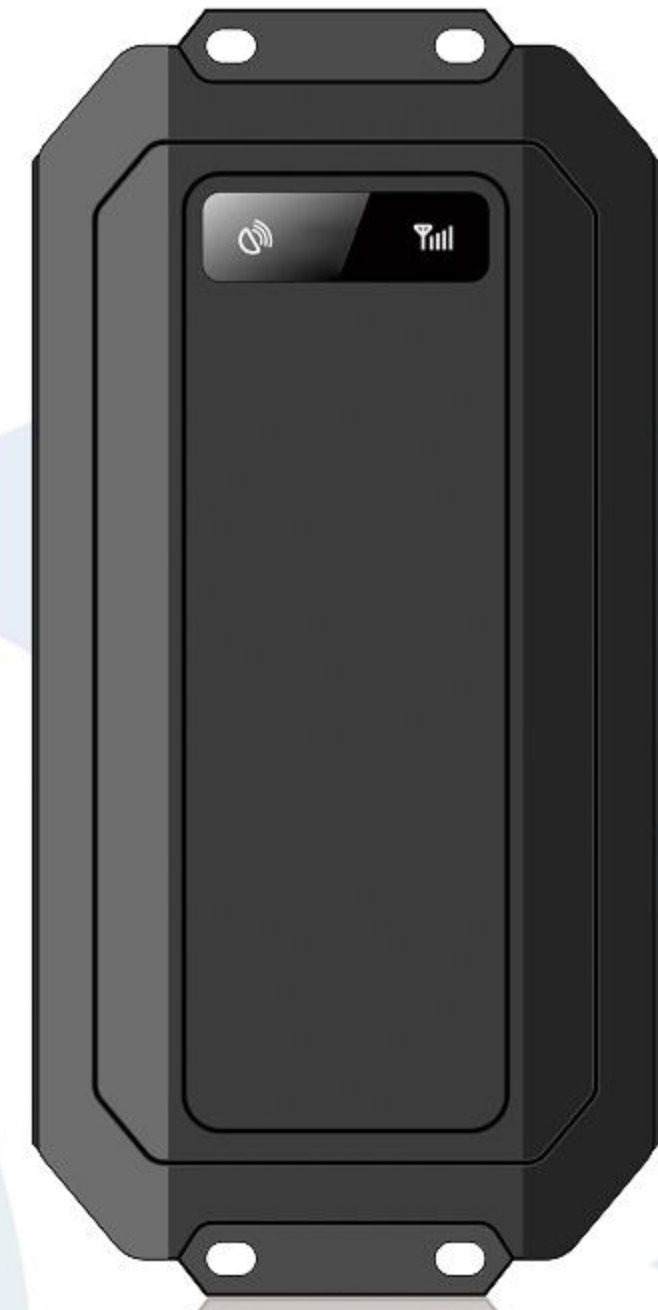

NT07E

Battery-Powered Tracker

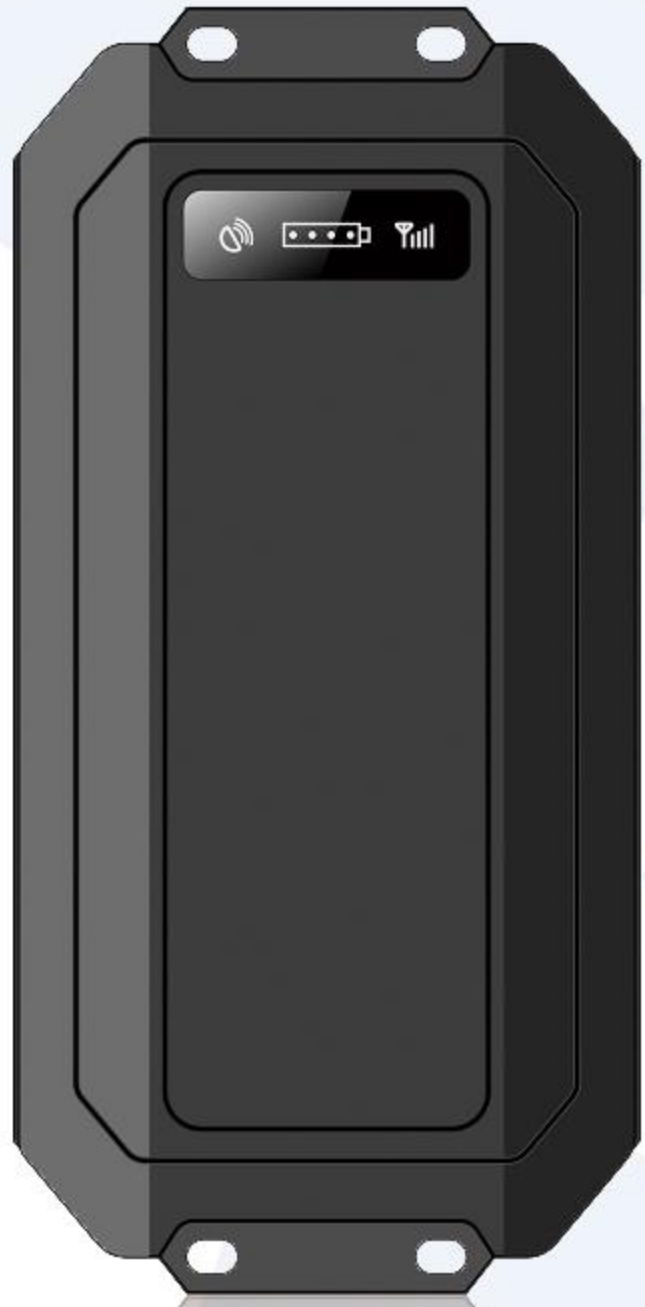

- Cellular LTE-M/NB-IoT Connectivity, optional Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 8100mAh replaceable battery with 5+ years battery life
- Multiple intelligent working modes including periodic, clock, motion and static mode and others
- IP67 Waterproof
- Temperature monitoring
- Collision, motion and removal alerts
- Battery level detection
- Magnetic
- Ultra-rugged design

NT08E

Battery-Powered Tracker

- Cellular LTE-M/NB-IoT Connectivity, optional Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 20000mAh replaceable battery with 10+ years battery life
- Multiple intelligent working modes including periodic, clock, motion and static mode and others
- IP68 Waterproof
- Temperature monitoring
- Collision, motion and removal alerts
- Battery level detection
- Magnetic
- **BLE ibeacon and gateway**

NT09E

Rechargeable Battery-Powered Tracker

- Cellular LTE-M/NB-IoT Connectivity, optional 4G Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 12000 mAh replaceable battery
- Live or periodic tracking, clock mode
- IP67 Waterproof
- Temperature monitoring
- Collision, motion and removal alerts
- **Bluetooth gateway and ibeacon**
- Battery level detection
- Magnetic
- Ultra-rugged design

NT28E

Hardwired Rechargeable Trailer Tracker

- Cellular LTE-M/NB-IoT Connectivity, optional 4G Cat1 network
- Hardwired mode and wireless mode are switchable according to external power supply status
- IP68 Waterproof
- 1 input+ 1 output for I/O interface
- ADC input for AD interface
- 2 RS232 and 1 RS485 for URAT interface
- 5200mAh rechargeable battery
- BLE ibeacon and gateway(Optional)
- Support external sensors
- **Bluetooth gateway and ibeacon**

NT35E Personal And Asset GPS Tracker

- Two way communication
- IP68 waterproof
- Temperature Sensor
- Cellular LTE-M/NB-IoT Connectivity, optional 4G Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- SOS button for emergency alarm
- 2900mAh batteries which can last 3-5 days
- Quick charge
- Super slim and rugged design

NT53E Rechargeable Battery- Powered Tracker

- Cellular LTE-M/NB-IoT Connectivity, optional Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 5200 mAh replaceable battery
- Live or periodic tracking, clock mode
- IP67 Waterproof
- Temperature monitoring
- Collision, motion and removal alerts
- **Bluetooth gateway and ibeacon**
- Battery level detection
- Magnetic
- Ultra-rugged design

LT12 Container Tracker

- Cellular 4G Cat1 network
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 10800mAh replaceable battery with 8+ years battery life
- Multiple intelligent working modes including periodic, clock, motion and static mode and others
- IP67 Waterproof
- Temperature monitoring
- Magnetic
- Battery level detection
- Ultra-rugged design and container air vent design
- Collision, motion and removal alerts

NT60 & NT61 Pallet Tracker

- NB-IoT connectivity
- GNSS, Wifi and cell tower location for outdoors and indoors position
- Built-in 2500mAh battery for 5 years life
- Support multiple working modes
- Ultra-low power consumption
- IP67 Waterproof

FT10

BLE or LoRaWAN Temperature BEACON

- Temperature Monitoring
- Humidity Measurement
- BLE 5.1 100m range
- LoRaWAN 5KM range
- 5 Years Standby
- 1800mAh Big Battery
- Smart Size

NT65

Emergency Lights Tracker

- NB-IoT connectivity
- GNSS, Wifi and cell tower location for outdoors and indoors position
- 9V battery
- Lighting flash
- Bluetooth
- Ultra-low power consumption
- IP65 Waterproof
